Experience the future of
Smart Living with SmartLife

SMARTLIFE

TECHNOLOGY LIMITED

What is Smart Living?

Imagine entering your home after a long day

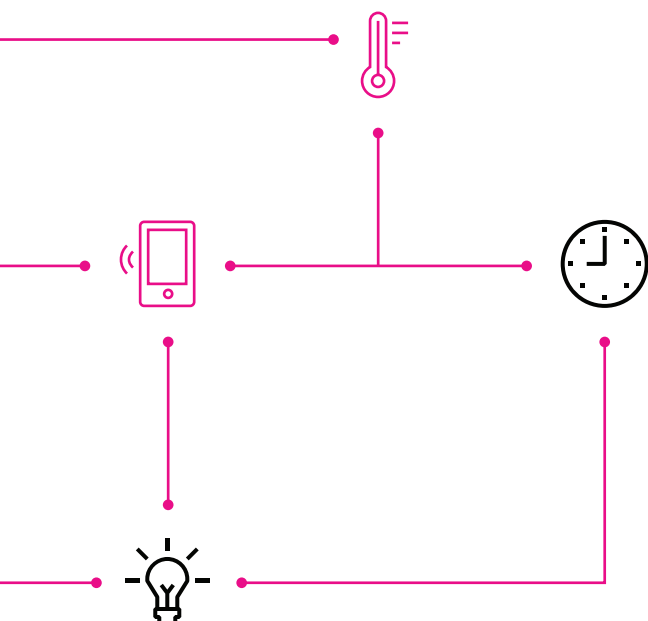

Your smart door lock recognizes you instantly through fingerprint, face or a password, granting you effortless access without the need for keys. As you step inside, the lights automatically turn on, your favorite music starts playing and the air conditioner adjusts to the perfect temperature, creating a welcoming atmosphere tailored for you.

Now, picture being away from home

Whether on vacation or at work—but still having complete control. You can monitor your home in real time, see who's at your door via live video and even speak to visitors through the smart door lock's intercom feature. Need to let someone in? Unlock the door remotely from your phone with just a tap!

Smart living doesn't stop there

Schedule your curtains to open at sunrise, appliances to turn on when needed and lights to switch off at bedtime. Whether it's ensuring security, saving energy or simplifying routines, smart living transforms your home into a space that works intelligently for everyone, making life easier and more enjoyable.

SMARTLIFE AT REHAB FAIR 2024

SmartLife recently showcased our cutting-edge smart home & office automation solutions at REHAB Fair 2024, reknowned as Bangladesh's largest property exhibition organized at BICC, Agargaon — and people were blown away by the excitement around SmartLife's smart automation technologies.

Why Clients Choose SMARTLIFE

SmartLife captivates customers with exceptional solutions. Our innovative products, reliable support, and transformative experiences have earned us unwavering trust, reflected in the love and satisfaction of our clientele.

My childrens love to use it

I am really impressed with the support of SmartLife. I bought this door lock from them a few days back and since then I have contacted them several times regarding the usage of the door lock. Every time they were very helpful. The door lock works very nice and my childrens love to use it.

TANVIR KHAN

Best feature of this door lock is camera

The best feature of this door lock is the camera. I can see who is outside the door. Love this feature. Overall it is a great door lock. The installation team from smartlife was professional and they took about 4 hours to set up the door lock in my door.

MAHMUDUL HASAN TONMOY

SmartLife has solved it within few hours

Purchased this door lock from smartlife last month. Till yesterday, it was working perfectly. I had an issue today with connecting with the app. I have requested for fixing the problem and smartlife has solved it within few hours. Thanks for the quick support.

JAHIRUL HAQUE

Smart Life is highly recommended and I wish their huge success.

AKM ZAIDUL ISLAM

It just eased all the troubles right away

Recently I have bought a SmartLife X1 Pro Smart Door Lock with Camera from them. It just eased all the troubles right away. Thanks SmartLife for making our life easier and secured!

REAZ AHMED

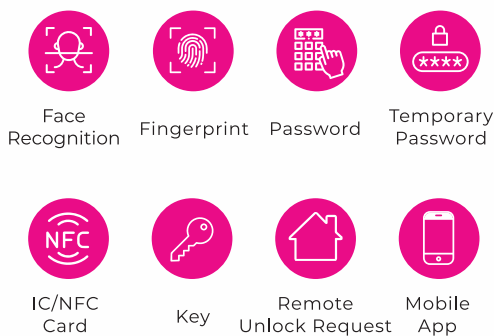

Smart Door Locks

Always in control of
your door

Smart Door Lock provides an **extra layer of protection** as well as ease of use. SmartLife offers the **most secure** and premium smart door locks in Bangladesh. These smart door locks have in-built connectivity that can connect with your Wi-Fi or bluetooth to operate its own mobile app.

You can download and connect it with the door lock. So, the next time someone comes, you already know someone is at your doorstep just from the notification on your phone.

Smart Door Locks has various features and can be unlocked with different ways depending on the model:

No matter where you are, your door is always just a tap away. Unlock using any **smart method** that suits your lifestyle.

Keep an eye on who's at your door with **real-time video monitoring** and receive instant **notifications** whenever the door is unlocked.

Unlocking Methods:

2-Way Smart Unlock, Fingerprint, Password, IC Card, Physical Remote, Guest OTP, Remote Unlock, Dual Verification, Key.

Smart Features:

Doorbell, Mobile App, Wi-Fi, Emergency Charging, Waterproof, Dustproof, Etc.

Client's Story

In conversation with SmartLife's team, **Mr. Khaled Hasan, Executive Director of Jams Group of Companies**, shares his experience with SmartLife's Smart Door Lock — how it has brought comfort, convenience, and a touch of innovation to his family's everyday life.

SmartLife: Thank you for joining us, Mr. Hasan. You've been using our Smart Door Lock for over nine months now. We'd love to hear how it has impacted your daily life.

Khaled Hasan: As-salamu alaikum to everyone. My name is Khaled Hasan, and I am the Executive Director of Jams Group of Companies. I want to share a few words about the Smart Door Lock. I don't know how much it has made my life smarter, but it has definitely made life a lot easier for my entire family. And for that, I'm truly thankful.

We had gone to visit the home of one of Bangladesh's top celebrities, as she was planning to sell her apartment. One thing that really caught our attention was the smart door lock in front of her door. My wife told me that the door lock was from SmartLife. She said, "That's the door lock I want if we buy a flat." I asked her, "Why do we need that smart door lock?" She replied, "You see, we'll be coming home with two little kids, carrying bags and a bunch of other things. We'll be searching for the key — you from your wallet, and me digging through my purse. It's a huge hassle. Didn't you see the SmartLife door lock at the celebrity's house? She just stood in front of it and the door opened immediately. You can also press your fingerprint and it opens. That's the convenience we need."

So when our youngest child was just 2 months old, we bought the flat and installed the smart door lock from SmartLife. And since then, it has given me tremendous service. It has made our life so much easier — truly!

Unless you try SmartLife's Smart Door Lock yourself and get used to it, you won't understand the drastic changes it brings to your life!

— Khaled Hasan
Executive Director, Jams
Group of Companies

SmartLife: You mentioned initially being hesitant about switching to a smart lock. How do you feel about it now?

Khaled Hasan: I'll be honest—I was skeptical at first. But after using it? The experience is hard to put into words. I could talk about all the amazing features, but the best way to understand its value is to experience it yourself. If you have kids or elderly parents at home, this lock becomes even more useful. You get real-time updates, and the ease of use is incredible.

There's a funny story I must share. When my baby started pulling on my beard, I had to trim it down significantly. I was worried the facial recognition might stop working. But on the 26th of March, right after trimming, I stood in front of the door—and the lock still recognized me and opened instantly. This kind of feature you see in iPhones! How did it come to a smart lock too? That's when I realized the true potential of SmartLife's Door Locks.

SmartLife: How was your experience with the installation and after-sales service?

Khaled Hasan: So basically, I called your customer service team. I told them to send me the lock, and I could pay through bKash or cash. They said, "No worries sir, you can pay the installation team in cash after the lock is installed." We didn't even have to go to your experience center. All your representatives asked was what type of door I had. I told them it was a double door. I asked if the lock could be installed on that, since I remembered the celebrity had a single flush door. They said, "Yes sir, it can be fitted. But we'll still send our team for a pre-installation inspection."

Your team came the next day for a pre-installation check. Once confirmed, the installation was completed the following day in just about an hour. The team also explained all the features thoroughly.

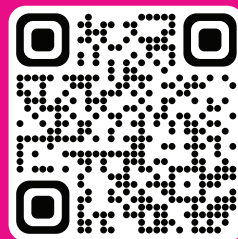

At the time, we didn't have WiFi due to ongoing interior work. The team promised to return to complete app setup once it was ready. True to their word, they returned after three days and completed everything. And since then, I haven't had to call even once. I haven't faced a single issue.

But... during these 9 months, I've received 6 follow-up calls asking if everything was okay with my lock. That really impressed me. I didn't need to reach out to you — your team reached out to me. It really shows that you care about your customers.

SmartLife: How was your experience with the installation and after-sales service?

Khaled Hasan: My sister told me that for her new 10-floor building in Jolshiri, she wants SmartLife's Smart Door Locks. She said she needs them — and only from SmartLife. Other friends who've bought flats in Jolshiri and Bashundhara — I've told them too, "You guys should really buy this lock." And every time they visit my home, they are fascinated by it.

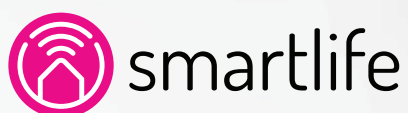

I look forward to exploring more SmartLife products to continue enhancing the comfort and security of our home.

CONTROL ANYTHING WITH
SMART SWITCH

ENABLES YOU TO
CONTROL YOUR
HOME FROM
ANYWHERE

smartlife **Smart Switches & Sockets**

SmartLife smart switches and sockets bring convenience, energy efficiency, and automation to your home or office. Smart switches includes smart light switches, dimmers, fan control switches, fan-light combo switches, and geyser/boiler switches, along with 3-pin and 5-pin smart sockets featuring USB-A and Type-C ports. All devices offer touch, app, and voice control via Google Assistant and Alexa, plus features like scheduling, timers, and smart scenes for custom automation.

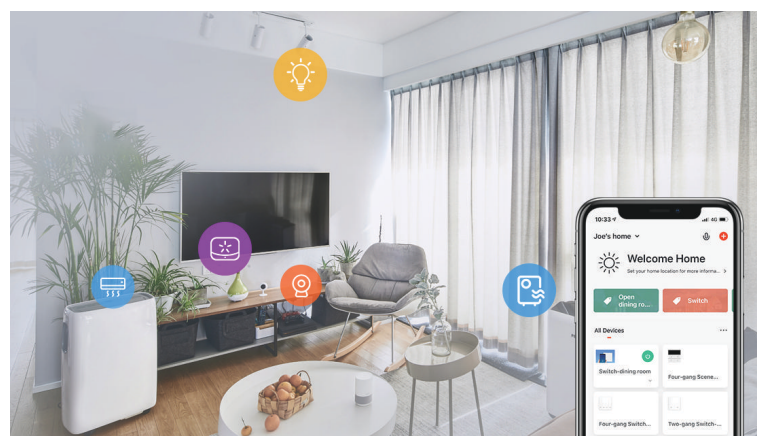

Smart Light Switches and Dimmers let you control lighting remotely, adjust brightness to match your mood, and set schedules — like automatically turning on your certain lights at sunset.

Fan Control and Fan-Light Combo Switches allow you to adjust fan speeds and lighting through app or voice, with timers to save energy, such as turning off the fan automatically after bedtime.

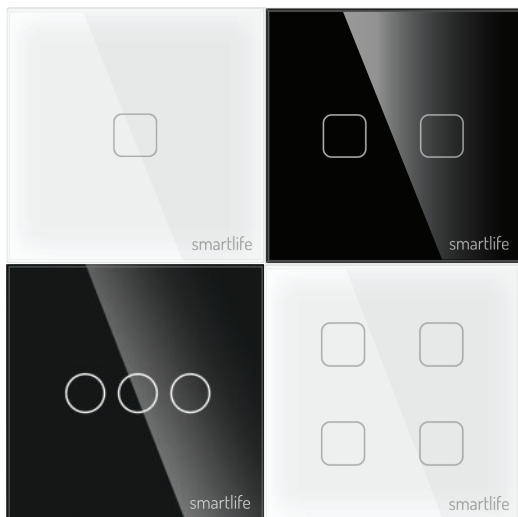

Geyser/Boiler Switches help you schedule water heating efficiently, like turning on the geyser 30 minutes before you get home.

Smart Sockets provide flexible power control for appliances and easy charging for devices via direct power or built-in USB ports. You can turn sockets on/off remotely, set timers, or create smart scenes — for example, turning off all sockets when you leave the house. You can charge your phone or macbook easily without any adapter.

Smart Scenes allow you to define specific triggers and actions for your smart devices, enabling them to interact with each other intelligently. Whether it's turning on the lights when you enter a room, adjusting the air conditioner based on the time of day, or even activating a complete home security system, Smart Scenes provide endless possibilities for customizing and enhancing your smart home experience. SmartLife's smart switches and sockets are smart scene compatible.

smartlife **Cabinet, Drawer & Gym Lock**

SmartLife offers versatile smart locks specially designed for cabinets, drawers, and gym lockers. These locks feature a sleek, minimalist design and provide a seamless unlocking experience using a card. Built for convenience and flexibility, they are ideal for a variety of furniture and locker types, offering a modern, keyless solution for everyday security needs.

Our smart locks are equipped with advanced security features, including optional password functionality and a low battery reminder to ensure uninterrupted use. The locking system guarantees a smooth and quick unlocking process, enhancing the user experience without compromising on safety. Their smart design makes them perfect for both personal and commercial settings.

In case a user loses their access card, there's no need to worry — lost cards can be voided easily, and a new card can be issued without hassle. This ensures ongoing security and peace of mind, making SmartLife locks a reliable choice for anyone seeking smart, flexible, and secure storage solutions.

Door-Window Sensor

SmartLife Door Window Sensor brings smart automation to your home. It can automatically turn on or off lights, fans, sockets, and other devices when a door or window is opened or closed. Easy to install and seamlessly integrates with your smart home setup, making life more convenient and energy-efficient.

Temperature and Humidity Sensor

SmartLife Temperature & Humidity Sensor brings intelligent automation to your home. It can automatically control ACs, fans, heaters, and other devices based on real-time temperature and humidity changes. Easy to set up and fully compatible with your smart home system, it ensures optimal comfort and energy efficiency.

Motion Sensor

SmartLife Motion Sensor makes smart automation effortless. It can automatically control lights, fans, sockets, and other devices based on detected movement. With easy installation and smooth smart home integration, it adds convenience, energy savings, and security to your everyday life.

smartlife **Guarantee and Warranty**

At SmartLife, we believe in providing complete peace of mind with every product you purchase. That's why we back our smart solutions with strong guarantees and long-term service support.

Replacement Guarantee

SmartLife offers **up to 2 years of replacement guarantee** depending on the product. If your smart device faces an issue that cannot be resolved using spare parts, we will completely replace the device within the guarantee period — ensuring you experience minimal disruption and maximum confidence in your investment.

Service Warranty

We stand by the quality and durability of our products with **up to 5 years of service warranty**. Should your device encounter any problems, SmartLife will repair it free of cost under this warranty. In case the repair requires any additional components, only the price of the spare parts will be charged — the service remains completely free.

Spare Parts Availability

To deliver a smooth and uninterrupted experience, SmartLife ensures spare parts availability for **up to 5-10 years** depending on the product. This ensures that even years down the line, your smart devices will continue to perform at their best with proper support and maintenance.

smartlife **Expert Installation Team**

At SmartLife, we know that a smart device is only as good as its installation. That's why we have built an **expert installation team** with extensive experience in setting up a wide range of smart solutions — from **smart door locks, smart switches, and cleaning robots to advanced PDLC systems** and more.

Our team is specially trained to handle **premium doors and high-end furniture installations**, ensuring that every device is installed with precision, care, and attention to detail. We understand the importance of maintaining both functionality and aesthetics, delivering a flawless finish every time.

With proven experience installing smart devices across all the **64 districts of Bangladesh**, SmartLife brings professional expertise and nationwide service coverage right to your doorstep. Wherever you are, you can trust us to deliver a smooth, secure, and hassle-free installation experience.
